MILLIONS FOR WATERWAYS.

BY FREDERIC J. HASKIN.

can people are in earnest about perfecting a system of inland waterways and har
been figured that it will take only \$200,000.

done in attractive settings seems to have bors in this country. Representatives of 1000 to build a fifteen-foot canal from Duevery State and city in the Union will are meet in Washington this week to urge upon Congress not only the importance upon Congress not only the importance of the civil war pensioners dies, the pensioners dies, the pensioners are upon Congress not only the importance of the civil war pensioners dies, the pensioners dies, the pensioners are upon Congress not only the importance of the civil war pensioners dies, the pensioners upon Congress not only the importance, but the actual necessity of getting down but the actual necessity of getting dow to a thorough and comprehensive scheme sufficient in fifteen years to build every typical and prolific vocabulary, who cor of improving the waterways of the canal herein mentioned, and leave enough ners all situations when he finds himself United States. The National River and Harbor Congress plays no favorites and backs no particular movement. To it the great Mississippi River scheme heralded under the striking slogan, "Fourteen feet through the valley," looks the same feet through the valley," looks the same as deepening Mochodoc Creek, in Virginia. Its constitution prohibits it from looking

Prophets of hope see the day when above the Hudson. ships will load at Chicago and carry their aming, but except for the latter undertaking they have all had the approval of Congress in that it has voted appropria-

ternal water communication. Washing-Mexico to Lake Michigan, thus being the father of the "fourteen-feet-through-the-valley" idea. Calhoun planned a canal between Pittsburg and Lake Erie, along the identical route now being proposed for such a canal. Henry Clay was not much of a canal advocate. When they were planning to build the Soo Canal has been down the much of a canal advocate. When they were planning to build the Soo Canal has been easily that it is a real annoy-developed the father is little satisfaction to be obtained from them in the privacy of one's bedragainst it, saying that it would be squandering the public money on chimeras beyond the domain of civilization or the moon. To-day that canal carries a Mexico to Lake Michigan, thus being the ance both night and morning. would amount to \$156,000,000 more than pense of false hair.

The saving of cost by water transporta-

shadow of Wall street, was undertaken in 1878, the total cost of which was to be 1878, work is continued at the same rate of progress, the Ohio will have a nine-foot able? Not one woman in 100, I know.

Raffles, in her former success, "The Girl in the Suck of Sannox. Mr. Kahn—Capt. Raffles, which was one of the few suctotal cost of the work is estimated at

But the country seems to be awakening to the necessities of the hour, and under the stimulus of the River and Harbor Congress there may be a hastening of the date of completing the more important projects. Last year's River and Harbor bill was the largest in the history of the country. Philadelphia is urging a twenty-seven foot channel across New Jersey to New York. Boston wants one from New York to Boston. Baltimore is asking for one from there to Philadelphia. and Pittsburg is figuring on one to Lake Erie and another to Baltimore. Cincinnati wants one to Tolede, and Chicago is bound to get in touch with deep water via her drainage canal and the Illinois and Mississippi Rivers. Some of these days Duluth and Minneapolis will get the canal they are seeking. At the same time there are vast demands for an inland waterway for the coastwise com merce from Boston to Galveston. There are only a few links to supply, and it

If there is anything in talk, the Ameri- takes no prophet to see that the day will bining of a story that can be understood canal of the future. The 1,500 feet to be ascended in 150 miles from Fort Benton

Well might the Eastern cities be strivcargoes directly into the innermost ports ing to establish water connection with next week brings them before us more of Central Asia, and into the very heart the Mississippi Valley. The great agri- conspicuously than would otherwise be of Europe. They see the time when cultural region is tributary to the Missis- the case.
